Varování

V období sněžení nebo při předpovědi sněžení otevírejte okenice ve svislé poloze, aby nedošlo k poškození pergoly.

Pergolu instalujte na rovný a tvrdý povrch. Abyste předešli případným problémům při budoucí instalaci dalšího příslušenství, utáhněte prosím všechny rozpěrné šrouby a ujistěte se, že jsou vodorovné a svislé rozměry správné. Sada obsahuje příklepovou vrtačku SDS-plus o průměru 12 mm. Možná budete muset použít svůj vlastní vrták, pokud se nehodí k vašemu vrtáku.
